

# The Midnight Mission

Addiction Care 2013

## Education

In an effort to maximize each client's potential, the Midnight Education Team offers an innovative multi-use education center as part of our care continuum. With the help and guidance of highly qualified, empathic staff and volunteer educators, clients can chart a rewarding educational course that will help strengthen their bridge to self-sufficiency. With an emphasis on goal-setting and achievement, the Midnight Education Team helps each client get a solid understanding of the benefits education holds for them.

Our team guarantees customized approaches to higher learning. It's that simple. We believe that investment in education pays lifelong dividends for each client. With that in mind the Education Team has designed an easy-to-learn curriculum taught in a comfortable setting with the latest technological infrastructure.

Each educator is committed to helping clients experience ongoing change and growth through learning. Clients who enter through our doors come from diverse backgrounds and varying levels of education. Using the best assessment tools and state-of-the-art resources, The Midnight educators deliver a highly effective program designed for continuous advancement.
